Summary of Qualifications:

- ✓ More than 13 years maritime experience dispatching on all shifts.
- ✓ Excellent customer, employer, authority, tugs and co-worker relations.
- ✓ Well accomplished in coordinating, executing safe traffic plans and communicating in a high stress problem solving environment.
- ✓ Skilled in software and computer technology. Knowledgeable in Microsoft Windows, Word, Excel and Outlook.
- ✓ 9 years experience operating Klein Systems for Tampa Bay Pilots.

Greetings:

Voluntarily resigning from the Tampa Bay Pilots Association early June 2011 in search of a new land to reside, I have been drawn by the beauty and diversity of the Pacific North West for a few years. Taking a cross country vacation coming up from northern California via Hwy 101, then traveling along the Columbia River, I settled in Everett to explore since early July. I am looking to make Washington or Oregon, west of the Cascade mountains my new home.

I have extensive experience dispatching Maritime Operations in the South East and have been studying and exploring the Pacific North West. I can easily adapt my skills to any size operation and location. Please give me a call or send an email if I meet your qualifications and I will be happy to visit your operation and discuss what I can do for you. Best Regards.

Sincerely,
Paul Soleau

Occupational Experience:

Dispatcher, Tampa Bay Pilots Association, Tampa, FL September 1997 – June 2011

- ❖ Collaborated for the enhancement of dispatch systems and procedures resulting in uniform group operation.
- ❖ Provided skilled multitasking and communications for pilots, customers, tug operators and authorities all working for safe navigation of waterways.
- ❖ Communicated with ships crew from different geographic areas and assisted them in locating ships and places of interest on their maps/GPS.
- ❖ Coordinated complex and dynamic traffic plans with agencies, pilots, authorities, boatmen and tug companies.
- ❖ Highly valued by Pilots, Executive Director and Office Management to improve

work rules and port operations.

- ❖ Followed through with communications to and from various entities.
- ❖ Determined changing weather conditions, tides and their impact on operations.
- ❖ Strengthened dispatch team by training 9 dispatchers, encouraging all to be high achievers.
- ❖ Designed and maintained company website for a diverse group of individuals and companies to help them provide timely services in the port.
- ❖ Assisted in maintaining office computer systems and software to help ensure smooth operations.

Tow Truck Operator, Arrow Towing, Tampa, FL

May 1996 - September 1997

- ❖ Class A Drivers License
- ❖ Executed the safe transport of multiple sized vehicles.
- ❖ Extensive use of maps.

Tow Truck Operator, Supreme Towing, Tampa, FL

October 1995 - May 1996

- ❖ Executed the safe transport of cars and customers.
- ❖ Extensive use of maps.
